#### **20.2 Prepaid electricity meters**

20.2.1 No prepaid electricity will be sold until the total combined account, including property tax account, related to the property to which the electricity is consumed has been settled, (irrespective in whose name the account is).

(a) the total outstanding account on the property must be paid on or before the due date of the month for which the account has been issued;

- (e) the previous months account has been paid in full unless a formal acknowledgement of debt is made;
- 50% of the current month's account has been paid;
  - if the consumer is unable to pay fifty percent (50%) of the current account, an agreement can be made for the amount the client can afford to pay based on a seventy/thirty (70/30) principle where seventy percent (70%) must be allocated to the combined arrear accounts and thirty percent (30%) towards prepaid electricity. Such an agreement is subjected to the individual assessment and approval by the senior delegated official in the estates and credit control section;
  - in cases where the consumer can only pay a minimal amount of one hundred (R100,00) or less, then a fifty/fifty (50/50) principle will be applied; or
  - only applicable when customer comes in to the main municipal offices during office hours – not applicable to consumers requiring this service after office hours or by means of the internet etc.; and/or
- (f) if a lessee wishes to make arrangements or buy prepaid electricity where the account has not been paid in full, a letter from the owner or his agent agreeing to the arrangement must be provided.
