

35/05/2016

**FINANCES: SECTION 19: CAPITAL PROJECTS 2016/2017**

5/1/1/8 (M)/dp

**Report by the Executive Director Financial Services**

1. According to the Municipal Finance Management Act, Act 56 of 2003, Chapter 4, Section 19(1), a municipality may spend money on a capital project only if –

*“(a) The money for the project, excluding the cost of feasibility studies conducted by or on behalf of the municipality, has been appropriated in the capital budget;*

*(b) The project including the total cost has been approved by the Council;*

*(c) Section 33 (contracts having future budgetary implications) has been complied with to the extent that this Section may be applicable to the project; and*

*(d) The sources of funding have been considered, are available and have not been committed for other purposes”.*

and Section 19(2) stated that before approving a capital project in terms of Sub-section 1(b) the Council of a municipality must consider –

*“(a) The projected cost covering all financial years until the project is operational; and*

*(b) The future operational cost and revenue on the project, including municipal tax and tariff implications”.*

2. In compiling these templates the following aspects were addressed:
  - i. Depreciation is determined according to the useful life of the asset as contained in the Asset Management Policy.
  - ii. Interest on external loan funding is calculated at 11,5% per year on the straight-line method.
  - iii. Tariff implications on income were calculated according to average annual operating cost of projects based on net expenditure after tariff adjustments for the 2015/2016 financial year.
3. The maintenance cost, other operating cost and revenue on the projects have been completed by the different departments whilst the depreciation, insurance and interest charges were provided by the Finance Department.

4. The completed templates for the 2016/2017 financial year are attached as **ANNEXURE A** for all capital projects per function.
5. The following is a summary which is representative of the financial impact of capital projects where the funding is secured, available and not committed for other purposes:

6. The external loan funding to the amount of R224-million (which includes the loan for 2015/2016), for the 2016/2017 financial year has a cost implication on a year to year basis in average of 2% of total expenditure. The future annual operating cost of proposed projects will amount to R26,4-million, with additional revenue of approximately R15-million. The net tariff implication on the operating budget, based on the proposed revenue for 2016/2017, will amount to 6,65%.
7. For all these projects the operational cost has already been included in the approved tabled annual budget and thus been included in the tariff adjustments.
8. It is recommended:
  - 8.1 That in terms of Section 19(1) of the Municipal Finance Management Act, Act 56 of 2003, all capital expenditure on the annual budget be implemented with effect from 1 July 2016.
  - 8.2 That it be noted that the sources of funding once considered and made available from the still to be approved annual budget must not be committed for any other purpose than originally indicated.

### **Recommendation by the Acting Municipal Manager**

1. **THAT** in terms of Section 19(1) of the Municipal Finance Management Act, Act 56 of 2003, all capital expenditure on the annual budget be implemented with effect from 1 July 2016.
2. **THAT** it be noted that the sources of funding once considered and made available from the still to be approved annual budget must not be committed for any other purpose than originally indicated.
